EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

Claims 66-73 have been canceled.

3. Newly submitted claims 66-73 were directed to an invention that is independent or distinct from the invention originally claimed for the following reason: The submitted claims were directed to the non-elected species of figures 6 & 9 as acknowledged by applicant and confirmed by the examiner. Since the application was in condition for allowance except for the presence of claims 66-73 drawn to a species non-elected without traverse as noted in paper # 6, and applicant had received an action on the merits for the originally presented invention, the newly submitted claims were constructively elected by original presentation for prosecution on the merits. Accordingly, these claims were withdrawn from consideration as being directed to the non-elected species and summarily canceled so as to expedite the prosecution of the application.
